Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices)

Subchapter C—Regulations Under the Farm Products Inspection Act

PART 56—DRESSED POULTRY AND DRESSED DOMESTIC RABBITS AND EDIBLE PRODUCTS THEREOF (INSPECTION AND CERTIFICATION FOR CONDITION AND WHOLESOMENESS)

MISCELLANEOUS AMENDMENTS

On November 7, 1947 a notice of proposed rule making was published in the

FEDERAL REGISTER (12 F. R. 7288) regarding an amendment to the revised rules and regulations governing the inspection and certification of dressed poultry and dressed domestic rabbits and edible products thereof for condition and wholesomeness (7 CFR, 1945 Supp., Part 56) Such revised rules and regulations are currently effective under the Department of Agriculture Appropriation Act 1948 (Pub. Law 266, 80th Cong., 1st Sess., approved July 30, 1947). This amendment (1) prescribes the manner in which the inspection service will be made available in connection with dressed poultry and dressed domestic rabbits, and (2) authorizes the Assistant Administrator to prescribe the terms and conditions prerequisite for the admittance of edible products into an official plant.

After consideration of all relevant matters presented, including the proposal set forth in the said notice, *It is hereby ordered*, That the following amendment to the aforesaid revised rules and regulations shall become effective February 1, 1948:

1. Delete the first sentence of § 56.18: *Evisceration* (7 CFR, 1945 Supp., 56.18) and substitute therefor the following: "No viscera or any part thereof shall be removed from any dressed poultry or dressed domestic rabbits in any official plant, except at the time of evisceration and inspection. Each carcass to be eviscerated shall be opened so as to expose the organs and the body cavities for proper examination by the inspector and shall be prepared immediately after inspection as eviscerated poultry or eviscerated domestic rabbits."

2. Delete the second sentence in paragraph (a) of § 56.23 *Uninspected product may not be handled in any official plant; reinspection of products* (7 CFR, 1945 Supp., 56.23) and substitute therefor the following: "No edible product other than an inspected and certified edible product shall be brought into an official plant unless authorized by the Assistant Administrator and upon such terms and conditions as he may prescribe. Any inspected and certified edible product may be brought into an official plant only if the container of such product is marked for identification in the manner prescribed in § 56.51 and the product is reinspected by an inspector at the time it is brought into such plant."

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board [Regs., Serial No. 340-D]

PART 24—MECHANIC CERTIFICATES

LIMITED MECHANIC CERTIFICATE WITH PROPPELLER OR AIRCRAFT APPLIANCE RATING; EXTENSION OF EFFECTIVE PERIOD

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 22d day of December 1947.

Special Civil Air Regulation Serial Number 340, as amended, expires December 31, 1947. It was intended that the provisions of this regulation would be included in the revision of Part 24, Mechanic Certificates, prior to December 31, 1947. It has not been possible to com-

RULES AND REGULATIONS

plete the revision of Part 24 before this date.

The purpose of this regulation is to continue the authorization for issuance and effectiveness of outstanding limited mechanic certificates until the projected revision has been completed. Termination of this regulation prior to the issuance of the intended revision of Part 24 of the Civil Air Regulations would impose an undue burden on propeller and aircraft appliance manufacturers and repair stations. Therefore, this regulation extends Special Civil Air Regulation Serial Number 340, as amended, for an additional six-month period.

For the reasons stated above, notice and public procedure hereon are unnecessary. Since this amendment imposes no additional burden on any person, it may be made effective on less than 30 days' notice.

The Civil Aeronautics Board hereby amends Special Civil Air Regulation Serial Number 340, as amended (10 F. R. 7790; 11 F. R. 31, 12 F. R. 40, 4666) effective December 31, 1947, by extending the termination date thereof from December 31, 1947, to June 30, 1948.

[Project No. 1930]

SOUTHERN CALIFORNIA EDISON CO.

ORDER FIXING HEARING

(1) By order dated August 9, 1946, the Commission authorized issuance of license under the Federal Power Act for Southern California Edison Company's constructed Kern River No. 1 hydroelectric plant (Project No. 1930) located on Kern River near the Town of Bakersfield in Kern County, California, the project affecting lands of the United States within Sequoia National Forest. The order specified that the license contain a condition requiring the licensee, for the preservation of recreation, to discharge at all times from the diversion dam or head works of the project to the stream channel of the Kern River a flow of water at a rate in cubic feet per second hereafter to be determined by the Commission. However, the license has not been issued.

(2) Section 4 (e) of the Federal Power Act provides that a license for a project located within a reservation shall be subject to and contain such conditions as the Secretary of the Department under whose supervision such reservation falls

shall deem necessary for the adequate protection and utilization of such reservation. In further reporting on the application for license pursuant to section 4 (e) of the act the Secretary of Agriculture, who has supervision over the Sequoia National Forest, now recommends that the license contain the following special condition:

For the preservation of recreation, the licensee shall, during the months of June through September of each year, discharge from the diversion dam or headworks of the project sufficient water to maintain a continuous flow of not less than fifty (50) c. f. s. in the stream channel as measured at a suitable point above Cow Creek; *Provided*, That the flow available to the project shall not be reduced thereby below seventy-four (74) c. f. s., the estimated minimum daily flow of record; and that the licensee shall reserve to the Commission the right to adjust said rate of flow after the Commission shall find, after notice to interested parties and opportunity to be heard, that the rate of flow is more than necessary or insufficient for such purposes.

(3) The applicant informed the Commission that the requirement for release of water for recreational purposes is in direct conflict with the provisions of certain contracts between the applicant and riparian owners with respect to the diversion of flow by the applicant, and that, consequently, it would be impossible for the applicant to comply with the provision requiring a release for recreational purposes.

(4) Residents of the area and organizations such as business, youth, church and recreation groups are interested in the question of release of water down Kern River for recreational purposes.

The Commission finds that:

(5) It is desirable and in the public interest to hold a public hearing respecting the matters involved and the issues raised in this proceeding.

It is ordered, That:

(6) A public hearing be held concerning this matter commencing on February 2, 1948, at 10:00 a. m. (P. s. t.) in Kern County Chamber of Commerce Building, Second Floor, Kern County Fairgrounds, Bakersfield, California.

Date of issuance: December 29, 1947.

By the Commission.
